

## Item 7113539UK

The Mini Brage 50 floor drain has a 50 mm vertical outlet and is suitable for installation in wooden or concrete joists. The Mini Brage 50 floor drain comes complete with a removable Flexi-NOOD water trap, clamping ring, 50 mm to 1½" adapter for solvent weld and plastic grate for vinyl flooring. The NOOD water trap is a mechanical trap which closes when there is no water present, thus preventing any foul air from escaping through the drain. The floor drain is suitable for vinyl, tiled and resin flooring. Grates for tiled and resin floors are ordered separately.

The automatic clamping ring is used for both sealing membrane and vinyl flooring. It is a self-adjusting clamping ring for vinyl flooring with a thickness of 1,5 mm to 2 mm.
