PURUS

Item 818102

Purus channel volume for concrete floors is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 400x400x100 mm with a mid outlet and is intended for concrete flooring. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

Item 818103

Purus channel volume for concrete floors is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 600x400x100 mm with a mid outlet and is intended for concrete flooring. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

Item 818104

Purus channel volume for concrete floors is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 900x600x100 mm med ett mittplacerat utlopp och är avsedd för betonggolv som ytskikt. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus

channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

Item 818105

Purus channel volume for concrete floors is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 800x500x100 mm with a mid outlet and is intended for concrete flooring. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

Item 818113

Purus channel volume for concrete floors is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 1000x300x50 mm med ett mittplacerat utlopp och är avsedd för betonggolv som ytskikt. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

Item 818107

Purus channel volume for concrete floors is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 300x300x200 mm with a mid outlet and is intended for concrete flooring. The floor channel needs to be

supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

Item 818108

Purus channel volume for concrete floors is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 500x300x200 mm med ett mittplacerat utlopp och är avsedd för betonggolv som ytskikt. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

Item 818109

Purus channel volume for concrete floors is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 800x500x200 mm with a mid outlet and is intended for concrete flooring. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

Item 818112

Purus channel volume for concrete floors is a floor channel made of acid-resistant stainless steel for installation in concrete.

The floor channel is 500x300x50 mm with a mid outlet and is intended for concrete flooring. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

Item 818115

Purus channel volume for concrete floors is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 1200x600x100 mm with a mid outlet and is intended for concrete flooring. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

Item 856720

Purus channel volume for expoxy is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 900x600x200 mm med ett mittplacerat utlopp och är avsedd för massagolv som ytskikt. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

Item Number	818102
